

Private Equity PROtectSM

Offering Private Equity Firms and Portfolio Companies a Comprehensive Suite of Insurance Coverage.

Private Equity PROtect gives private equity firms and portfolio companies a comprehensive suite of insurance coverage to mitigate risks throughout the investment cycle.

PROTECTING PRIVATE EQUITY FIRMS

Private Equity and Venture Capital firms raised over \$420 billion in 2021. As the size of the private markets has increased, so has the level of scrutiny surrounding the industry. In addition to heightened attention from regulators, there has been an increased focus on private valuations in the media.

Argo Pro's Private Equity PROtect policy provides a full suite of coverages to mitigate risks faced by Private Equity companies. Through a combination of Management and Professional Liability coverages, Argo's policy can be tailored to fit your specific needs.

PROTECTING PORTFOLIO COMPANIES

Private Company PROtectSM
