

Argo Pro XS PROtectSM

Management and Professional Liability Insurance

Argo Pro's XS PROtectSM is designed to follow excess of management and professional liability coverages and is a flexible yet streamlined approach to excess coverage. XS PROtectSM offers customizable coverage structures based upon risk appetite and risk management objectives, including options for shared or separate limits.

KEY COVERAGE HIGHLIGHTS

We offer excess coverage for the following management and professional liability coverages:

- Accountants professional liability
- Architects and engineers professional liability
- Crime and fidelity coverage
- Directors and officers liability
- Employment practices liability
- Fiduciary liability
- Lawyers professional liability
- Miscellaneous professional liability
- Privacy and security
- Other similar coverage types

KEY POINTS

- No minimum attachment
- Streamlined follow form over "followed policy"
- Ability to manuscript
- Policy contains few definitions to more closely align with the followed policy
- Responds to the loss at our attachment point based on our policy provisions and that of the followed policy
- Recognizes underlying limits erosion for coverage that is broader
- Claims professionals dedicated to exclusively managing excess claims

COVERAGE LIMITS

Maximum capacity is \$15 million.
