Bloodborne Pathogens

Always:

- Practice Universal Precautions--treat all blood and body fluids as if they were infected.
- Protect yourself with proper latex gloves, gowns, masks, CPR pocket masks, and other protective barriers.
- Bandage cuts, scrapes, and broken skin.

- Wash hands and exposed area(s) with soap and water immediately after exposure to blood or other body fluids.
- Report exposures immediately to your supervisor.
- ❖ In the event blood or other body fluids come into contact with equipment, floors, and other works areas, immediately limit access to area and disinfect.

Never:

- Break, bend, or recap used needles or other sharp objects.
- Eat, drink, or store food in an area with potential exposure.
- Smoke, put on makeup, or handle contact lenses in an area with potential exposure.

Rockwood Casualty Insurance Company (Rockwood) may provide safety management services to its insureds in order to reduce the risk of loss that may lead to insurance claims. The information and advice we provide is not intended to include all possible safety measures and controls. Rockwood does not warrant that losses and claims will be avoided or mitigated if our recommendations are followed. The safety management services we provide do not relieve the insured of its own duties and obligations with regard to safety matters, nor does Rockwood guarantee to the insured or others that the insured's property and/or operations are safe, healthful, or in compliance with applicable laws, regulations or standards. The insured remains responsible for its own operations, safety practices and procedures and should consult with legal counsel and safety professionals, of its own choosing, as it deems appropriate.
