## Do Not Get Carried Away! Working Around Conveyors

Do not service or work on conveyors until the motor is disconnected and lockout/tagout is implemented.

Do not wear loose-fitting or torn clothing.

Always shutdown motors before attempting to free or clear obstructions.

Never operate if guards are missing. Remember to re-install guard after repair or maintenance work.

Keep emergency shutdown controls free of obstructions and operable at all times.

Never cross over or beneath moving belts.

Rockwood Casualty Insurance Company (Rockwood) may provide safety management services to its insureds in order to reduce the risk of loss that may lead to insurance claims. The information and advice we provide is not intended to include all possible safety measures and controls. Rockwood does not warrant that losses and claims will be avoided or mitigated if our recommendations are followed. The safety management services we provide do not relieve the insured of its own duties and obligations with regard to safety matters, nor does Rockwood guarantee to the insured or others that the insured's property and/or operations are safe, healthful, or in compliance with applicable laws, regulations or standards. The insured remains responsible for its own operations, safety practices and procedures and should consult with legal counsel and safety professionals, of its own choosing, as it deems appropriate.
