Stairway Safety Usage Practices

Minimize the danger of slipping, tripping or falling on steps by doing the following:

- Do not store items on the steps and areas at the top and bottom of the steps.
- Maintain steps free of grease, oil, water, mud, and other slip hazards. Immediately clean up spills and other hazards on steps.
- Maintain steps free of ice and snow. Apply a deicing material.

- Limit what you carry up and down steps. If you have to carry something, do not obstruct your view.
- Use the handrails when going up and down the steps.
- Do not run up or down the steps.
- Do not skip over steps.

Rockwood Casualty Insurance Company (Rockwood) may provide safety management services to its insureds in order to reduce the risk of loss that may lead to insurance claims. The information and advice we provide is not intended to include all possible safety measures and controls. Rockwood does not warrant that losses and claims will be avoided or mitigated if our recommendations are followed. The safety management services we provide do not relieve the insured of its own duties and obligations with regard to safety matters, nor does Rockwood guarantee to the insured or others that the insured's property and/or operations are safe, healthful, or in compliance with applicable laws, regulations or standards. The insured remains responsible for its own operations, safety practices and procedures and should consult with legal counsel and safety professionals, of its own choosing, as it deems appropriate.
