

Spill Center, Inc.

Argo Environmental has partnered with Spill Center, Inc. to provide next-gen environmental incident response management and communications. The Argo environmental risk platform provides clients with instant incident reporting, real-time alert distribution and immediate access to response resources and Argo's expert compliance team – all to mitigate environmental incidents.

THE SPILL CENTER, INC. PLATFORM:

- Live, 24/7 incidence response
- Real-time reporting
- Nationwide service
- Dispatch and management of qualified response
- Incident reports to regulatory authorities
- Vendor invoice audit
- Facilitation of faster claim settlement

HOW IT WORKS:

1

Report an incident anytime by phone, online, or via the Android or iOS mobile app Argo Environmental

2

Vital incident details are captured during the intake process

3

Spill Center, Inc. operations identifies location-based emergency response resources

4

Role-based, real-time alerts update you on the claims process at every stage

Visit argo.spillcenter.io or call 1-844-988-1148 for reporting or claims – 24 hours a day, 7 days a week.

Please note that Spill Center, Inc., and its associated services, are offered as a pre-claim service for Colony Insurance Company clients to respond to emergency spills. Reporting an incident to Spill Center, Inc., is not confirmation that your incident is covered under your policy. Colony Insurance Company reserves its rights under the policy to conduct an investigation to determine its coverage obligations, if any. Please be advised that any financial or contractual agreements made with or by referral from Spill Center, Inc., including contracting with third-party vendors to respond to the incident, initial abatement or emergency response services will be evaluated under the terms and conditions of your policy for purposes of affording coverage. Coverage for these services are only reimbursable to the extent that the services are covered under your policy, considered reasonable and necessary, and required by applicable environmental laws and regulations.
